

Temi eticamente sensibili e libertà di coscienza. Note a margine del libro di Flamigni e Mori sulla legge 40

CORRADO DEL BÒ

Ethical Issues and Freedom of Conscience

Abstract: The paper discusses the new book by Carlo Flamigni and Maurizio Mori suggesting that one of the powerful ideological support to Italian law on assisted reproductive technology (Legge 40/2004) has been the union of the idea of “ethical sensitive issues” with a wrong interpretation of “freedom of conscience”.

Keywords: Assisted reproductive technology, Ethical sensitive issues, Freedom of conscience.
