

L'individualismo dei diritti addomesticato dall'utilitarismo. Replica a Ilario Belloni

FRANCESCO FERRARO

Rights' Individualism Tamed by Utilitarianism. A Reply to Ilario Belloni

Abstract: The author replies to Ilario Belloni's critique of *L'utilità dei diritti*. The book attempts to take the language of rights seriously from a utilitarian perspective. This can be made by employing its individualistic connotations without falling into the ethical individualism of "right-based" theories.

Keywords: Rights language, Utilitarianism, Legal rights, Moral rights.
