Let's wait until that time matures! On the joint Document of the Italian Medical Association and the Society of Anaesthesia on the Covid Triage and the Analogy with “the peace reigns at Warsaw”

Abstract: On March 6, 2020 the Ethics group of anaesthesiology issued 15 Recommendations for triage in extreme pandemic situations. The President of the Italian Medical Association criticized the proposals, creating a sharp divide within health-care professionals. Allegedly, the peace was restored by a joint document issued on October 30. In reality the anaesthesiologists were silenced. As it happened in Warsaw in 1831, we have to wait that times mature.
