MATTEO CRESTI

*Ethical Life: Expanding or Narrowing the Circle?*

*Abstract:* The paper aims to discuss two points from Donatelli's book *La filosofia e la vita etica*. First, why should a genealogical investigation of morality be useful: which advantages does it offer to know where it stems? Secondly, the author does not answer the question of why to be moral. If ethics is an overcoming of customary morality or evolutionary instincts, why should we expand the circle of those who have moral consideration?

*Keywords:* Evolutionism, Aim of ethics, Metaethics, Far right.
