Legal Method in the Age of AI: between Metaphysics and Epistemology

Abstract: In her latest book, Angela Condello argues the following thesis: the ongoing digital revolution and its applications in the legal field risk altering the nature of law by making it something other than what it necessarily is. In this short essay, I will reconstruct the reasons that lead Condello to support this thesis and offer some critical insights that might be useful for further research.

Keywords: AI, Legal method, Legal practice, Nature of law, Legal knowledge.
