

Commenti e questioni (non senza un'autodifesa) emergenti dalla lettura del libro *L'eredità di Max Weber* di Realino Marra

EDOARDO FITTIPALDI

Comments and Issues (not without a Self-defense) Arising from Realino Marra's L'eredità di Max Weber

Abstract: In (1), Fittipaldi briefly discusses the purport of Marra's book. (2) is devoted to some issues arising from Marra's book, such as the notions of *Sinn*, *Motiv*, *soziales Handeln*, as well as Weber's antipsychologism and notion of *Evidenz*. In (3), Fittipaldi defends Weber's idea of a duplication of legal sciences into sociology of law and legal dogmatics and argues the opposition to this duplication results from *20th century's idealistic counterrevolutions*.

Keywords: Weber, *Sinn*, *Motiv*, *Evidenz*, Legal dogmatics.
