Beccaria and the Epistemological and Political Violence of Criminal Practices: a Reply

Abstract: The article responds to comments on my book *Diritto e sragione. Follia e ozio a partire da Beccaria* (2023), analyzing Beccaria's relationship with Foucault's notion of unreason and promoting a conception of Beccaria's philosophy as a critique of the epistemological and political violence of penal practices.

Keywords: Madness, Idleness, Dangerousness, Beccaria, Foucault, Ferrajoli.
