

Private and Public Responsibilities and Citizens Engagement: the Comieco experience

Carlo Montalbetti
General Manager Comieco

In its annual report stating the paper and board packaging recycling targets achieved, Comieco - the National Consortium for the Recovery and Recycling of paper and board packaging, also describes its activities performed according to the guidelines of the Global Reporting Initiative (GRI) with reference to social, environmental, and economic responsibility. The Third Parties identified as priorities for the institutional purposes and the reference values of the Consortium include the Consortium Members, the Community, the Human Resources, the Environment, the Suppliers, and the Institutions. The separate collection results achieved in time and the relations with Third Parties point out to an ongoing success history.
